DISCOVER OUR NEW MODELS

DESIGN / DISEÑO

All the design and development of our models is done in our Technical Department in conjunction with our competition team with a comprehensive methodology to meet the latest trends in the market.

Todo el diseño y desarrollo de nuestros modelos se realiza en nuestro Departamento Técnico conjuntamente con nuestro equipo de competición con una metodología exhaustiva para poder satisfacer las últimas tendencias del mercado.

PRODUCT AND FUNCTIONALITY PRODUCTO Y FUNCIONALIDAD

Our models are always developed with the maximum efficiency and functionality for the user. In this case, the opinion transmitted by our Partners is very important.

Nuestros modelos están desarrollados siempre pensando en la máxima eficiencia y funcionalidad para el usuario. En este caso, la opinión que nos transmiten nuestros Partners es muy importante.

SERVICE / SERVICIO

One of the most important premises today is the efficient delivery of the product to the Partners and have a regular stock to be able to satisfy the demand of the final customers.

Una de las premisas más importantes en la actualidad, es la entrega eficiente del producto a los Partners y contar con un stock regular para poder satisfacer la demanda de los clientes finales.

Discover a new experience: the E-MTB. With electric pedal assist motors and a compact frame with specific geometry with a very centered and low center of gravity, you can reach the same sites that you knew before, but with an added plus in power. With multiple modes of action on the motor you will be able to control the power transmitted to the pedalier axis through a display in the handlebar. The battery is in charge of the autonomy, being much more durable than can be expected. We benefit from the new E - 8000 engine developed by Shimano and the long-travel suspension that provides never-before-seen grip and traction: everything so you can enjoy the E-MTB experience.

Descubre una nueva experiencia: el E-MTB. Con los motores eléctricos de asistencia al pedaleo y un cuadro compacto de geometría específica con un centro de gravedad muy centrado y bajo, podrás llegar a los mismos sitios que ya conocías anteriormente, pero contando con un plus añadido en potencia. Con varios modos de acción sobre el motor podrás controlar la potencia transmitida al eje de pedalier a través de un display en el manillar. La batería se encarga de la autonomía, siendo ésta mucho más duradera de lo que se puede esperar. Nos beneficiamos del nuevo motor E - 8000 desarrollado por Shimano y de la suspensión de largo recorrido que proporciona un agarre y tracción nunca antes vistos: todo para que tu puedas disfrutar de la experiencia E-MTB.

DESIGN AND DEVELOPMENT

Ayrón represents e-MTB technology. Specifically created to have the best experience in handling and transmitting optimum power, from biker to terrain.

DISEÑO Y DESARROLLO

Ayrón representa la tecnología e-MTB. Específicamente creada para tener la mejor experiencia en el manejo y la transmisión de potencia optima, del biker al terreno.

SUSPENSION SYSTEM

A pivot system that optimizes feelings by riding the bike. Designed to go up and down, without pedaling contamination.

SISTEMA SUSPENSIÓN

Un sistema de pivotaje que optimiza sensaciones encima de la bici. Diseñada para subir y bajar, sin contaminación de pedalada existente.

GEOMETRY

Safety and comfort of the biker is the main thing in geometry.

GEOMETRÍA

Seguridad y confort del biker es lo principal en la geometría.

MOTOR

The Shimano engine allows us to get short pods, giving agility. Rigidity assured with the Boost system.

MOTOR

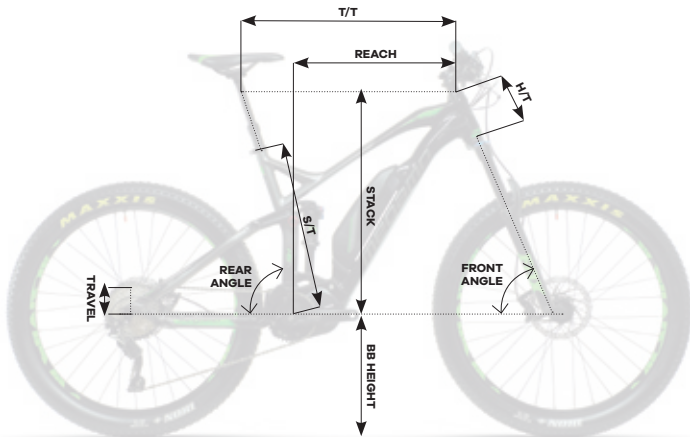

El motor Shimano nos permite conseguir unas vainas cortas, dando agilidad. Rigidez asegurada con el sistema Boost.

DESIGN AND DEVELOPMENT

Aspe represents e-MTB technology. Specifically created to have the best experience in handling and transmitting optimum power, from biker to terrain.

DISEÑO Y DESARROLLO

Aspe representa la tecnología e-MTB. Específicamente creada para tener la mejor experiencia en el manejo y la transmisión de potencia optima, del biker al terreno.

MOTOR

Powerful SHIMANO STEPS motor is strong enough to handle the steepest of trails, yet intuitive enough to give you just the right amount of support every pedal stroke along the way.

MOTOR

El potente motor SHIMANO STEPS es lo suficientemente fuerte como para afrontar la más escarpada de las pistas, pero lo suficientemente intuitivo como para ofrecer la cantidad justa de asistencia en cada golpe de pedal.

DISPLAY

Extensive choice of power-assist settings to match your unique riding style. Compact, easy-to-read display with dynamic visuals when switching between support settings.

DISPLAY

Amplia selección de ajustes de asistencia al pedaleo para adaptarse a tu estilo de pedaleo único. Pantalla compacta y de fácil lectura con imágenes dinámicas al cambiar entre los ajustes de asistencia.

FACTORY

Created to win! The monocoque frame developed with thinner tight and optimized is stiffer but lighter. It has all the technical characteristics that you expect.

No encontrarás límites! Diseñada para triunfar. El cuadro monocasco desarrollado con unas vainas estilizadas y optimizadas que garantizan rigidez y ligereza simultáneamente, cubre todas las expectativas técnicas.

FACTORY ELITE
WINNER OF THE EUROPEAN XCO CHAMPIONSHIP

STRUCTURAL CONSTRUCTION

A pipe optimized for each zone according to its effort and solicitation.

CONSTRUCCIÓN ESTRUCTURAL

Una tubería optimizada para cada zona según su esfuerzo y sollicitación.

ABSORPTION AND RIGIDITY

More clean seat stays without union pieces provides more comfortable races, with wider tires and seat post 30.9

ABSORCIÓN Y RIGIDEZ

Ausencia de puente de unión en la zona del sillín, paso de rueda mayor y tija de 30.9

GEOMETRY

Lower dimensions, greater steering control, a shorter rear with specific measures for size.

GEOMETRÍA

Cotas más bajas, mayor control de la dirección y una parte trasera más corta con medidas específicas por tallas.

BOOST STANDARD

The rear axle Boost allows to improve the chain line without losing rigidity.

BOOST STANDARD

El eje trasero Boost permite mejorar la línea de cadena sin perder rigidez.

Play with the ground of your favourite paths. Descend faster than the last time. Lean into curves. Don't fear braking last minute. Climb to the top. This is Enduro. Enjoy descending but never giving up on hills. After spending time developing, Megamo introduces its new platform called XR. Designed to be strong, comfortable, handy, exciting and confident. The all mountain geometry and the long-travel suspension ensure the perfect traction and grip.

Juega con el terreno de tus senderos favoritos. Baja más rápido que la última vez. Túmbate más al girar. Apura más al frenar. Sube hasta la cima. Esto es enduro. Disfruta cuesta abajo sin temer llegar a la cima. Tras mucho tiempo de desarrollo, Megamo presenta la plataforma XR. Diseñada para ser robusta, confortable, manejable, divertida y con un buen aplomo. Una geometría all-mountain junto a la suspensión de largo recorrido proporcionan un agarre y tracción nunca antes vistos.

SUSPENSION SYSTEM
A pivot system that optimizes feelings by riding the bike. Designed to go up and down, without pedaling contamination.

SISTEMA SUSPENSIÓN
Un sistema de pivotaje que optimiza sensaciones encima de la bici. Diseñada para subir y bajar, sin contaminación de pedalada existente.

SHORT REAR STAYS

XR is able to trim the length of rear stays and the entire swingarm from the pivot point. Consequently one of the most reactive and agile bikes for the most energetic and sharp turns.

VAINAS TRASERAS CORTAS

XR consigue recortar la longitud de vainas traseras y en conjunto todo el basculante desde el punto de pivotaje. En consecuencia una de las bicicletas mas reactivas y agiles para los giros mas energicos y cortantes.

TAPERED HEAD TUBE

The Zero Stack head tube system, increases the mechanical stiffness on the head set. It contributes on more rigidity and precision on the control of the bike.

TAPERED HEAD TUBE

Este sistema de pipa cónica denominada Zero Stack incrementa la resistencia mecánica al conjunto del juego de dirección aportando mayor rigidez y precisión en el control de la bicicleta.

DIRECT POST MOUNT

The Direct Post Mount standard has so many advantages. For example, the bracking action is more efficient, and also the vibes are reduced. In addition, we save a few weight. The situation of the Direct Post Mount into the rear part, reduces the possibility to twist the disc brakes in case of falling.

DIRECT POST MOUNT

El sistema Post Mount aporta grandes ventajas como una mayor eficacia en la frenada, la reducción de las vibraciones en la pinza así como la disminución del peso. También, al estar ubicada en el interior de las dos vainas, reduce la posibilidad de torsión del disco en caso de caída y le protege de posibles impactos.

Without the rush of races but never giving up in hills, the concept of trail is to ride wherever you want.... even if it's far. These are comfortable and very safe bikes that want high speed. Its comfort helps you during longer routes. There's no ground or trail you won't be able to ride. An all-round bike that allows leaning into curves faster, climbing tops never reached and descending safer thanks to the rear suspension. Pure sensations.

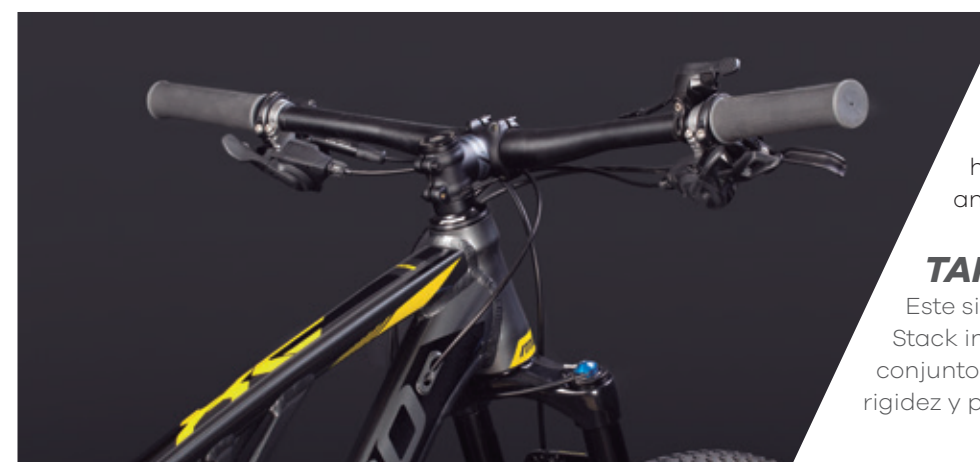

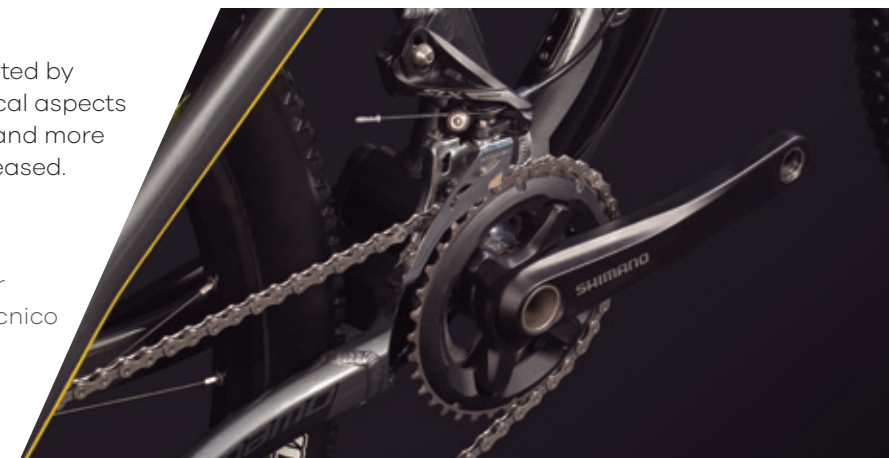

Sin las prisas de las carreras pero sin rendirse en las cuestas, el concepto trail se traduce en pedalear por cualquier terreno. Son bicicletas cómodas con las que se puede llegar a ir muy rápido, siempre de forma segura y sin renunciar a la comodidad que te permitirá realizar rutas de larga duración. Podrás afrontar cualquier terreno, ningún camino se te resistirá. Una bici versátil y polivalente que te permitirá tomar las curvas más rápido, subir hasta dónde ahora no has llegado y bajar más seguro gracias a la suspensión trasera. Puras sensaciones.

NATURAL

Our allow top frame is called Natural Elite. With a modern and racing geometry full of technology: triple butted tube, tapered head tube, rear brake's clamp integrated between tights, internal wiring and adapted for the new Side Swing from Shimano. Nothing is missed in the mounting of this bike. Everything so you can enjoy mountain bike without worrying.

Nuestro cuadro tope de gama en aluminio se llama Natural Elite. Este cuadro de geometría moderna y racing, es pura tecnología: tubería triple butted, pipa de dirección cónica, pinza de disco integrada, cableado interno y anclaje de desviador directo. La bicicleta viene preparado para que no te falte de nada. Todo para disfrutar del ciclismo de montaña sin preocupaciones.

SIDE SWING SYSTEM

The new anchorage and routing developed by Shimano is a good advantage on the technical aspects and esthetic. The gearshift is smoother, and more efficient. The beauty of the frame is increased.

SIDE SWING SYSTEM

El sistema de desviador desarrollado por SHIMANO nos aporta un gran avance técnico así como estético. Por una parte, nos proporciona una ejecución más suave y eficaz del proceso de cambio y por otro lado el cuadro queda más limpio.

TAPERED HEAD TUBE

The Zero Stack head tube system, increases the mechanical stiffness on the head set. It contributes on more rigidity and precision on the control of the bike.

TAPERED HEAD TUBE

Este sistema de pipa cónica denominada Zero Stack incrementa la resistencia mecánica al conjunto del juego de dirección aportando mayor rigidez y precisión en el control de la bicicleta.

DIRECT POST MOUNT

The Direct Post Mount standard has so many advantages. For example, the braking action is more efficient, and also the vibrations are reduced. In addition, we save a few weight. The situation of the Direct Post Mount into the rear part, reduces the possibility to twist the disc brakes in case of falling.

DIRECT POST MOUNT

El sistema Post Mount aporta grandes ventajas como una mayor eficacia en la frenada, la reducción de las vibraciones en la pinza así como la disminución del peso. También, al estar ubicada en el interior de las dos vainas, reduce la posibilidad de torsión del disco en caso de caída y le protege de posibles impactos.

Created to win!

The frame has been developed to satisfy all the technical requirements that keep you into the lead. This bike is a missile made to get on the road at high speed. Made with hydraulic aired discs brakes from Shimano. Your challenge has started.

Creada para ganar!

El cuadro ha sido desarrollado para cumplir todas las exigencias técnicas que te permitan estar siempre delante. Se trata de un misil que sólo necesita devorar kilómetros a velocidades de vértigo. Montada con frenos integrados al cuadro, dejando una estética más limpia. Sin duda, tu desafío ha empezado.

FLAT MOUNT BRAKES

The Post-Mount system offers great advantages such as greater braking efficiency, reduction of vibrations in the clamp as well as reduction of weight. Also, being located inside the two pods, reduces the possibility of torsion of the disc in case of fall and protects against possible impacts.

FLAT MOUNT BRAKES

El sistema Post Mount aporta grandes ventajas como una mayor eficacia en la frenada, la reducción de las vibraciones en la pinza así como la disminución del peso. También, al estar ubicada en el interior de las dos vainas, reduce la posibilidad de torsión del disco en caso de caída y le protege de posibles impactos.

ESPECIFIC AERODYNAMICS GEOMETRY

The design and development of the frame, based on the results of thousands of analysis with aerodynamics software, has let us to have a geometry that reduces the rolling force. This technique allow us ride on faster speeds, using the same power that before.

ESPECIFIC AERODYNAMICS GEOMETRY

El diseño y desarrollo del cuadro se ha realizado a partir de los resultados de un programa específico de cálculo aerodinámico que nos permite obtener la mejor geometría para reducir la resistencia aerodinámica y las vibraciones producidas por el rodamiento. Con esta técnica, podemos alcanzar la máxima velocidad aplicando la misma potencia en el pedaleo.

NEW GEOMETRY

More upright steering and saddle angles and a higher reach: improves position.

NUEVA GEOMETRÍA

Ángulos de dirección y sillín más verticales y un reach mayor: mejora la posición.

AERO CONCEPT

Using CFD software causes better aerodynamic design.

CONCEPTO AERO

Usando software CFD se consigue un diseño aerodinámico mejor.

NEW SHAPES

A particularly short rear part but getting integrated the wheel with the saddle tube.

NUEVAS FORMAS

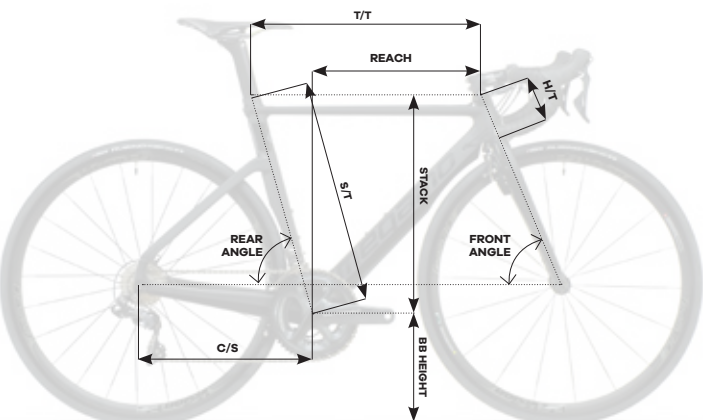

Una parte trasera especialmente corta pero consiguiendo integrar la rueda con el tubo del sillín.

Enjoy the pure cycling, without limits of time or space. This is the maximum with which the Raise model has been developed. A complete bicycle, to enjoy even irregular stretches or gravel. With the safety of the new Flat mount disc braking system and the stiffness of the front and rear through axles. They are advantages in comfort and comfort that determine the final result in long routes.

Disfruta del puro ciclismo, sin límites de tiempo ni espacio. Esta es la máxima con que se ha desarrollado el modelo Raise. Una bicicleta completa, para poder disfrutar incluso de tramos irregulares o con gravilla. Con la seguridad del nuevo sistema de frenado de disco Flat mount y la rigidez de los ejes pasantes delantero y trasero. Son ventajas en comodidad y confort que determinan el resultado final en rutas largas.

THE CONCEPT OF INTEGRATION

Fork with specific design and internal cable routing. With integrated brakes also.

EL CONCEPTO DE LA INTEGRACIÓN

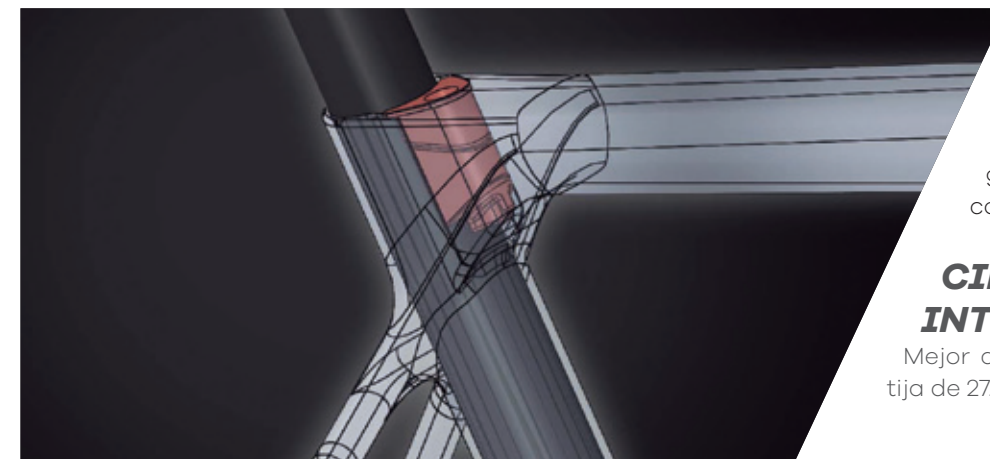

Horquilla con diseño específico y cableado interno. El anclaje es integrado.

REAR STAYS AND THRU AXLES

Thru axles 12mm, for more rigidity. Also with rear stays empty for a more natural cable routing

PUNTERAS Y EJES PASANTES

Ejes pasantes de 12mm, para una rigidez mayor. Anclaje de la pinza integrado.

SEAT CLAMP INTEGRATED

Better visual appearance with the integrated closure. The 27.2mm seat provides comfort and absorption.

CIERRE DE SILLÍN INTEGRADO

Mejor aspecto visual con el cierre integrado. La tija de 27.2 da comodidad y absorción.

BBSET BB86

ACCESSORIES.....	202

LIGHTNESS AND BREATHABILITY FIRST.

A jersey that stands out for its lightness and breathability. A high performance garment that will adapt perfectly to your body thanks to the great elasticity of the 3 lycras that compose it. Fitted sleeves, low neck and non-slip silicone rubber at the waist for a streamlined and comfortable position.

The Skin jersey is a model designed to suit anyone who makes frequent use of the bike and wants to enjoy a comfortable and high performance garment.

LIGEREZA Y TRANSPIRABILIDAD ANTE TODO.

Un maillot que destaca por su ligereza y transpirabilidad. Una prenda de altas prestaciones que se adaptará perfectamente a tu cuerpo gracias a la gran elasticidad de las 3 lycras que lo componen. Mangas ajustadas, cuello bajo y goma siliconada antideslizante en la cintura para buscar una posición aerodinámica y de confort.

El maillot Skin es un modelo pensado para adaptarse a todo aquel que haga un uso frecuente de la bicicleta y quiera disfrutar de una prenda confortable y de altas prestaciones.

FOR THOSE WHO WANT TO ENJOY CYCLING IN THEIR CYCLING OUTINGS.

Low grip with lycra rubber.
Ergonomically shaped, highly breathable and elastic micro-strap straps for added fit and comfort.
Lycra® made of high performance fabric, capable of ensuring correct compression of the muscle improving performance.

PARA LOS QUE QUIEREN DISFRUTAR DEL CICLISMO EN SUS SALIDAS.

Agarre bajo con goma con lycra.
Tirantes de microrejilla altamente transpirables y elásticos en forma ergonómica para mayor ajustabilidad y confort.
Lycra® compuesta por tejido de alto rendimiento, capaz de asegurar la compresión correcta del músculo mejorando su rendimiento.
